Another Harry Potter book.
Hello.
I'm Rin Ochima.
Now that this volume has been compiled, this is the 3rd Potter book.
Considering this is coming from turtle-like Ochima, it's about the right pace. (If you can call what I've put out till now "books".)

This time, I knew it'd be Harry Potter! A one-volume book *smile* A one-volume book... I love how I can draw in the very beginning the person* that doesn't make a sudden appearance until much later on *bursts out laughing* sorry about that. It's what I love. Although I've poured all my love into these designs, it's likely that a few passionate fans will disagree with the way I've drawn some characters.
If this is how you feel, please close this book and stabilize yourself by finding another wonderful book to read where the characters are more true to the original work. When you've decided you're prepared, please go ahead.

*Probably referring to Sirius

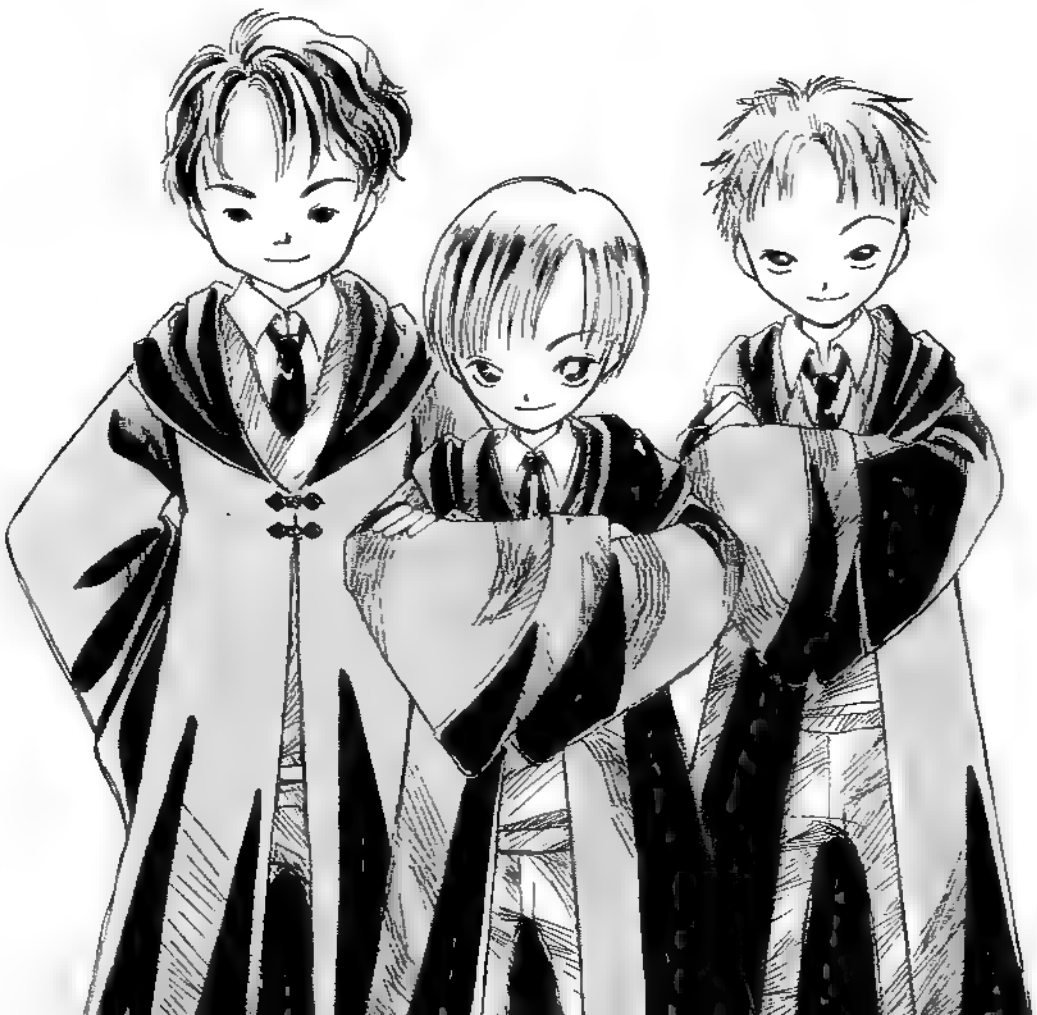
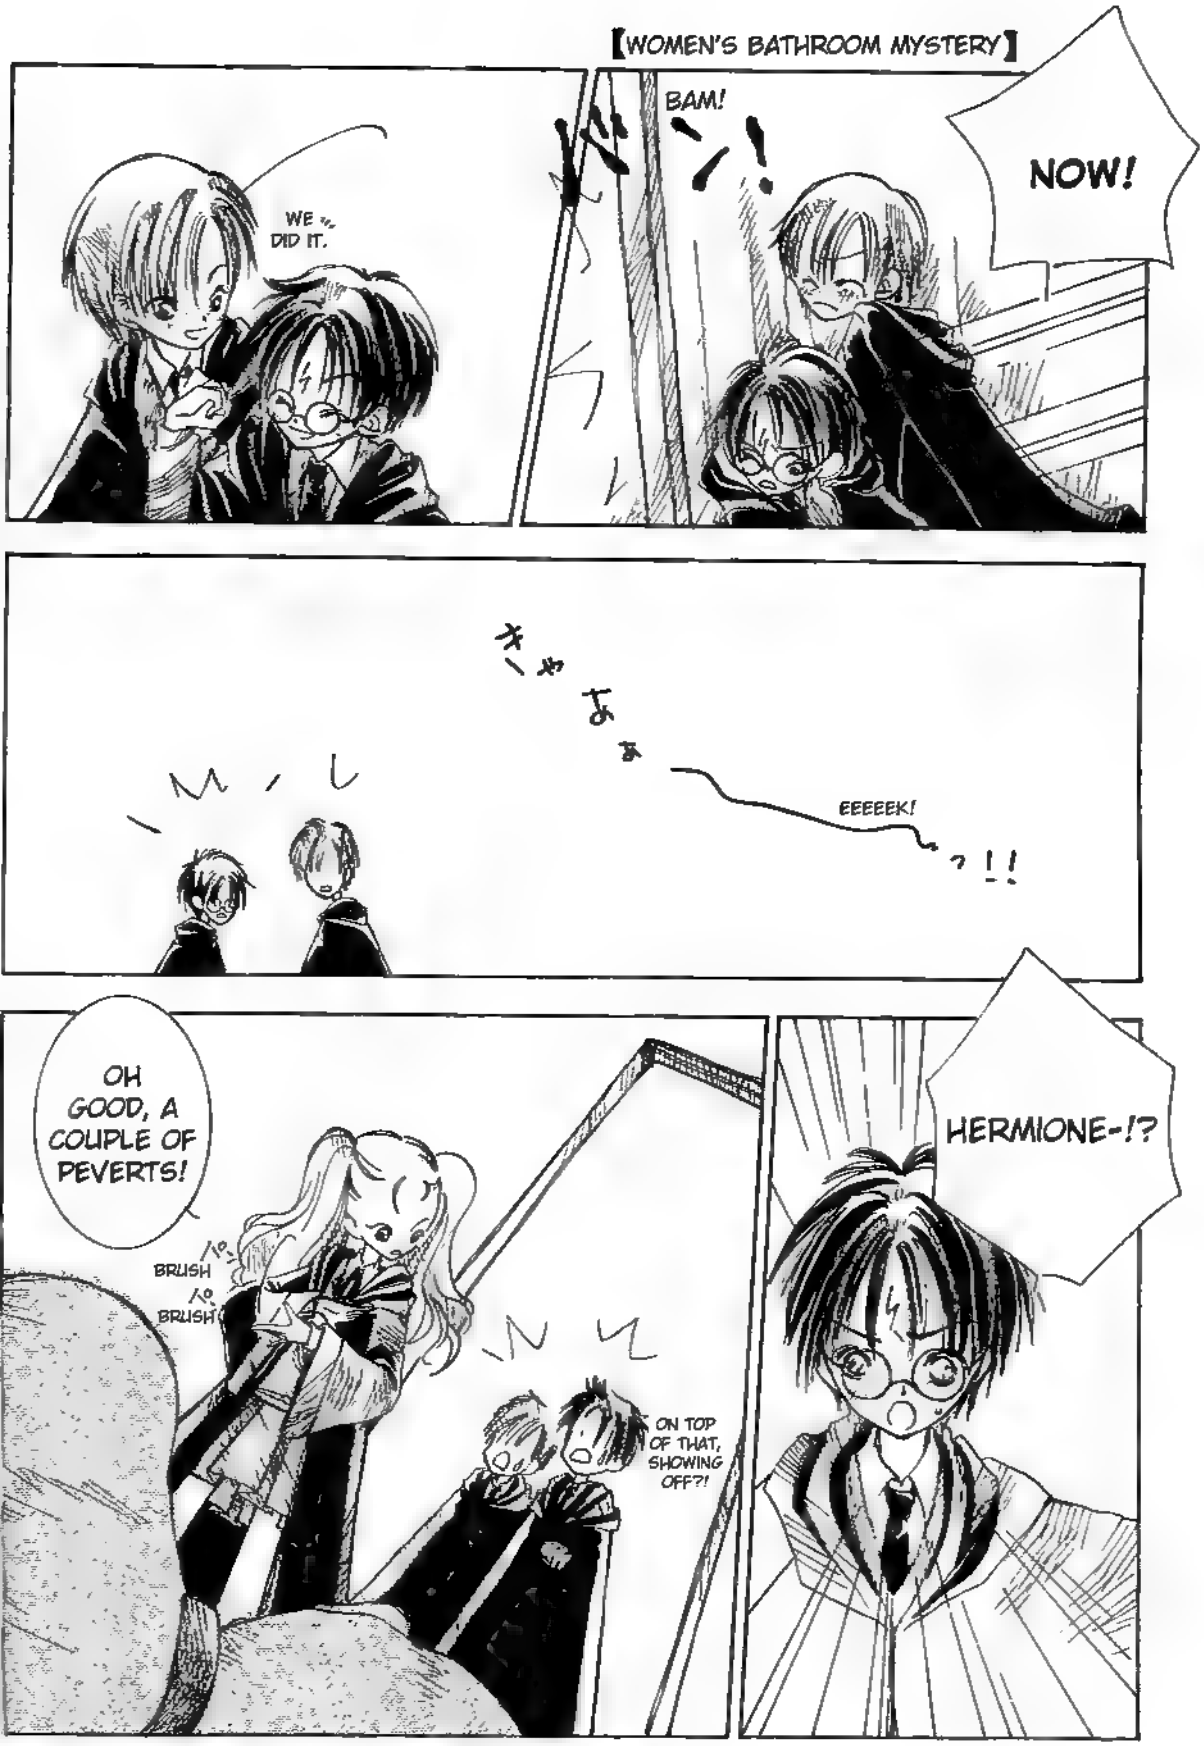
Potter uniforms...
Until now I drew them with a strong sense of fantasy, and that's quite alright, but because of the movie, I had to say "English uniforms!" *laughs* of course! Was this how it happened for you?! I want to know.
I changed my style to more resemble the movie version *sweat*
.but! Boys (Girls are excellent too, though they rank lower on my scale) I love young boy's knees, I worship Harry's, and I love to draw them!! I drew my creation entirely as I pleased.

The sort of uniforms designated by the Hogwarts school
- Shirt, robe, cloak, hat . one kind.
- Slacks (for men) . standard knickerbockers
- Skirt (for women) . standard, British, box style, tights
- Sweater . long sleeves, vest type
- Necktie ... necktie, ribbon (black)

The socks and shoes can be chosen Provided that the person looks like a student in them.

They can wear whatever they like in private. . What (I wonder) *laugh*
I've investigated thoroughly the different skirts people prefer in the evening *smile* because I want to draw all the various uniforms!!





WE DID IT.
BAM!

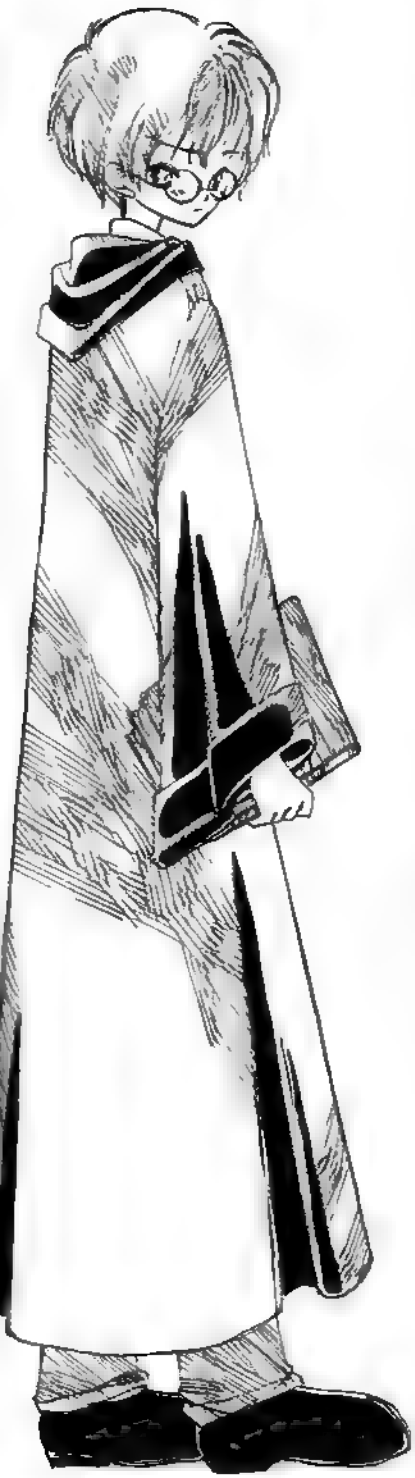
YOU'RE LATE, I HAD TO WAIT FOR YOU, FORGE

BUT REALLY, I'M NOT BORED AT ALL

WELL SOMETHING GLOOMY LIKE THIS
HAS TO HAPPEN ONCE IN AWHILE



The twins manga was my uber-personal interpretation (divided into one of two? *laughs*) Yes~, I think it's clear, it's twin love. It's love. As a twin love person, no matter what, I wanted to draw a "twins comfort Harry" scene, so it's regrettable that the twins weren't described when Harry got his large demerit. It's my desire that the twins remain Harry's friends even if he gets a demerit. Biased. True, there are other Quidditch members, but they all called Harry "Seeker" so coldly. *cries* If it's these two people, I take a lot more interest in it.

Although the twins don't seem to have any real reason to "comfort" Harry, I think he needs to hear "don't worry about it, we understand". It gives a different feeling, too. "We're ●●(For Example. Harry)'s friends!" I don't think there's any connection. They're very original characters. a good thing. Ah, the mutual relationship of the twins *smile* is still something I desire, but it gets sticky quickly. It's something only 2 people can have. *laugh* Uheeheeheehee. There's a difference between friends *wry smile* and family, they must be treated with great care, like a person from a foreign country.

Damn, this talk really got off-track.
Well, when I consider a future Harry and his tastes, I can only see him as a first-year. Nevertheless, every school year is different. I'm certainly pleased with Harry, although I think there's probably a limit to how much "love" I've got. When he gets a 150 point demerit, he's likely to be angry. But that's expected, so I'll forgive it *smile* rather, it's when they say, "well, it can't be helped" that I can't forgive it. (delusional) Twins banzai!! *explode*

Ah, hairdos are a hobby of mine. My happiness~

I have to telephone the express home delivery company in a few hours. This book really is on time (a mystery) as it's coming out in April, so here's to applause and cheering!

This is confidential, but the next book might be called "The Broken Watch Spring" or "The 16th Love Generation". ♡ How becoming.

I did a little spying, to find out other's opinions, and I'm weeping at their remarks

A Yokoshima juvenile literature site is opening. (Site name: Small Country of Koropokkuru)

*According to http://www.esse.monash.edu.au/~jwb/wwwjdict.html a 'Koropokkuru' is a "mythical Ainu dwarf God". I'm not sure what any of this has to do with the doujin :D (I suppose Hari Pota is Juvenille literature_?)
